

AfterSwim®

Safe, fast, alcohol-free way to dry ear canals!

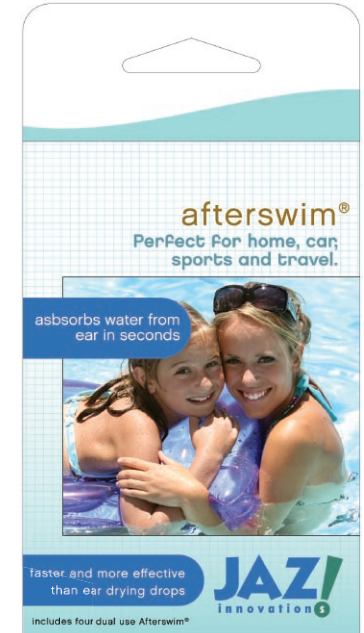

Safer than cotton swabs, more thorough drying than eardrops, faster drying than air dryers.

The AfterSwim introduces a new approach to drying the ear canal in an effort to remove water from clogged ears or simply maintain cleanliness.

Features & Benefits

- Flared tip design eliminates the risk of over insertion.
- Product only needs to be inserted far enough into the ear to break the surface level of the water.
- Can absorb over 5x the amount of liquid an average ear canal can hold.
- One product can be used on both ears.
- Alcohol free.
- Safe for children.
